Safe Touch Policy

Teaching dance is a physical activity and appropriate physical contact between students and teachers in class is essential to training, limb alignment and to prevent injury.

Teachers are required on occasions to make physical contact with a student to illustrate a concept or to adjust a student's alignment – this allows dance progression and understanding. We recognise that such physical contact is a complex area and we also fully recognise our responsibilities for safeguarding students and teachers and for protecting their welfare.

The following principles and procedures are in place to fulfil our obligations:

1. Contact by the teacher is made with particular awareness to the needs of each individual/to assist the student in correcting placement.
2. All teachers will treat any physical contact with due sensitivity and care and with due regard for the wishes of the student.
3. Contact will not involve force or the use of any instrument.
4. Teachers will be mindful of location and avoid situations where they are isolated with a student – all classes should will be held in our own professional studios.
5. Students should be encouraged to discuss any worries with any member of staff.
6. Both students and teachers should report any concerns to the Protection Offer (P2D Dance Studio Manager – Jessica Shore)
